Feel like you wanna make love
Calling when you wanna stay in touch
Lie together just to gain trust
Say what you wanna say, can't help if this is us

What story do you wanna tell when there's no one listenin'?
What keeps us goin' sometimes when we think of givin' in?
What makes us fool of ourselves? Blissful ignorance
We're so addicted to love that we get revisitin'

Feel like you wanna make love
Calling when you wanna stay in touch
Lie together just to gain trust
Say what you wanna say, can't help if this is us

Feel like you wanna make love
Calling when you wanna stay in touch
Lie together just to gain trust
Say what you wanna say, can't help if this is us

Never been a conversation
We just know it's always good
Need an explanation when it's understood
So wrap your legs around me, crazy
Take me where you wanna go, ah
You're in control, oh, oh

Feel like you wanna make love
Calling when you wanna stay in touch
Lie together just to gain trust
Say what you wanna say, can't help if this is us

Feel like you wanna make love
Calling when you wanna stay in touch
Lie together just to gain trust
Say what you wanna say, can't help if this is us
