

# BADKID!!!

Dvwn

I tried I can't forget you  
You're so bad bad  
Don't tell me it's over

When we were together  
You know we felt something, something special

I've been dealing with my suicidal thoughts  
Living life with bad memories  
From old times, I've been thinkin' past memories  
"Hmm suicide?"  
Nah, just put it back, it is bad  
You can't get it back  
You're just trippin' bad with bad memories  
"No suicide" yeah I care bout my memories  
"You are alive!" You gave me good memories  
You showed me real love  
But I fucked up!  
Oh!  
(Keep me by your side)

Ooh baby be patient with me  
You're all I want, all I want  
(Keep me by your side)

You made me realize why I need ya  
Would you believe me, believe me  
Or is it too late

I'm searching for you  
I was lost, now I want  
You taught me bout truth  
I'm not lost now I want

You said  
"Just cry, don't need to worry bout others but you"

You gon leave me?  
Don't you leave me?  
Just don't leave me alone

I miss you  
Close to you
