

Candy Now

Dwarves

I'm gonna take a little walk outside and see the sun shine - it
's alright
Like congregating, when they're really fly, you win the fist fi
ght - it's outta sight

I love it when you call and I'm not home
I know you gonna fall for me - never alone

I'm gonna take you to the TV eye and you can feel that it's alr
ight
Take Edgar Hoover from the FBI, we're gonna steal that - it's o
utta sight

I love it when you knock and my door's locked
And then I get a shot from the vote in your sock
Rock!

Candy now, now
Candy now, Candy now
Follow the beat
Together now

It's alright
It's outta sight

Candy now - Follow the beat
Candy now - Together now
(2x)
Follow the beat
To hear the beat
Together now
Candy now
