

## Get Up & Get High

Dwarves

Get high, get high ,get high with me  
Get high, get high, get high with me  
Wake out and get high with me  
I forbid you to fall asleep  
I tell you I'm late  
Now get up and get high with me  
Get high, get high ,get high with me  
Get high, get high, get high with me

Wake up and get high with me  
You know, no motel is free  
My legs are killing me  
Now get up and high with me  
And now I really wanna to make you the new ...  
We are the little...  
After out little labour

Get up and get high with me  
Get up and get high with me  
Get up and get high with me  
Get up and get high with me
