

Who I Am

Dwarves

Don't you understand who I am?
When you say god damn
I'll break the field and fill the holes
Don't you understand who I am?

So simple, I came to ride that thing
Come back with me where the silence is
Don't you understand who I am?
Don't you understand who I am?

I 'm gonna to set your light
Who I am
I will take you somewhere very far away tonight
You are very hard to detain
If you say my name

Don't you understand who I am?
Don't you understand who I am?
