

Dim The Lights

Dwele

If you want it
Then I want it
We should get it
You want my moves
Deep in your womb
Let's play hide my friend
In your bedroom

Dim the lights baby
I want you to say
How much you can take (what you want from me)
Dim the lights baby
I want you this way
How much can you take
What I want from you

You want my lips
On you
I want your hips
On me (on me)
We want this feeling to last
Last always
Eternity
I got what you want baby
I'll be your confidant
To wrap your problems
If that's what you want
All my life
I wanted
Someone like you
To want me too

Dim the lights baby
I want you to say
How much you can take (what you want from me)
Dim the lights baby
I want you this way
How much can you take
What I want from you

I'm in a zone
Sh*t feels good
Show me what you need girl
I wanna feel your world
Just take me in your world
Pass the gin
You can touch my manhood
You look good on your nightstand
You need to feel my body move
Inside you like grown folks do
I wanna feel ya body move
Watch what Dwele do
I make it feel payday too
You gone tell your girls bout this dude
Every girl want a friend
F*** that every woman want a man

Dim the lights baby
I want you to say
How much you can take (what you want from me)
Dim the lights baby
I want you this way
How much can you take
What I want from you
