

This Love

Dwele

Girl, you're something special knew when I saw you
I'd be looking at your smile As we walked down the aisle
Can we pretend for a moment that the earth stop spinning
You are the first time I ever kissed your lips, girl
Oh no more wishful thinking
You're everything I ever dreamed real
Love has taken over I'm so thankful

I remember I remember the man that I used to be
How you bring the
Girl, you bring the best out of me
Me and you really ain't thinking nothing they gonna say they go
nna say, say
Baby, I ain't going nowhere
I'm ready to give love love
Are you ready for this love, love, love
I'm going to give you all this love, love, all this love for ya
I think we're ready for this love, this love

You're the best thing that could ever happen to me
Nothing can compare to how you make me feel
You can't be duplicated
And i appreciate it i never have to worry
You're so faithful
Oh don't want to wait no more
I just want to seal the deal cause
I don't want to wake up from this dream
Let's make it real

I just want to be near
Closer to your shadow shadow
Give me your hand love and we will spend forever
You smile is so infectious
First thing I see when I open up my eyes
My heart racing
Breath taken
Thinking about this love

I'm ready to give love love
Are you ready for this love, love, love
I'm going to give you all this love, love, all this love for ya
I think we're ready for this love, this love (2x)
