

Forgive me, 'cause you can't adequately comprehend a word that
I'm saying
You are contemplating that I am wasting your time
Your precious time
Your precious time

I wish I was blind
To see the things I
To see the things I can't see without eyes
Without eyes

Forgive me, 'cause you can't adequately comprehend a word that
I'm saying
You are contemplating that I am wasting your time
Your precious time
Your precious time
