

# Brighter Days

Dwight Yoakam

Brighter days are up ahead  
Brighter days that's what you said  
The first time you ever spoke to me  
Brighter days are bound to come  
Around each corner shines the sun  
Just waiting there for both of us to see  
Brighter days  
Are what you promised me

Brighter days won't take too long  
With brighter days the clouds move on  
Then leave a soft warm light that  
Sets us free  
Brighter days are bound to come  
Around each corner shines the sun  
Just waiting there for both of us to see

That promise makes  
Every step we take  
Lead where the future beams  
Sweet fortune cookie dreams

Brighter days are up ahead  
Brighter days that's what you said  
The first time you ever spoke to me  
Brighter days are bound to come  
Around each corner shines the sun  
Just waiting there for both of us to see

Brighter Days each filled with fun  
Brighter days won't stop at one  
'Till a thousand million shadows  
Jump up and flee  
Brighter days are bound to come  
Around each corner shines the sun  
Just waiting there for both of us to see  
Brighter days  
Are what you promised me

Brighter days are up ahead  
Brighter days that's what you said  
The first time you ever spoke to me  
Brighter days are bound to come  
Around each corner shines the sun  
Just waiting there for both of us to see  
Oh, brighter days  
Yeah, brighter days  
Oh, brighter days  
Are what you promised me

Brighter days are up ahead  
Brighter days that's what you said  
The first time you ever spoke to me
