

# Every Night

Dwight Yoakam

You can hold my heart  
You can hold my hand  
As long as you and I  
Both understand  
You can hold me loose  
You can hold me tight  
As long as you do  
It every night

Yeah as long as that goes on baby  
Every night  
You can take my soul  
For a long love ride  
Spin it upside down  
Tease and bend my mind  
Just as long as that goes on baby  
Every night

Yeah because  
All I want or need  
Is the tiny thoughts  
That go boom boom boom in me  
While you flirt around  
Back 'n forth through town  
Like you're still free  
And that's cool  
As long as every night ends  
Up with me

Oh yeah then  
I make sure to be  
Steady ready for the  
Glance you know I'll see  
Of your eyes on fire  
Burning hungry  
And so full of need  
It's all good  
As long as every night ends  
Up with me

So you can hold my heart  
You can hold my hand  
As long as you and I  
Both understand  
You can hold me loose  
You can hold me tight  
As long as you do  
It every night  
Yeah as long as you do that baby  
Every night  
Yeah as long as you do  
That baby every night
