

## Liar

Dwight Yoakam

You say that you will  
When I know that you won't  
You say that you do  
Baby when I know you don't  
Really love me  
You never loved me at all  
Honey you never tried  
If you did you would have had to crawl

You say that I did  
Baby when you know I don't  
You said that I will  
When you knew that I won't  
Ever love you  
No I would not even try  
Look if you say it again  
I'll swear that's just one big lie

Oh you say that you do  
But we both know you don't  
You still say that you will  
When it's so for sure you won't  
Ever love me  
No you never even try  
From the first day we met  
And you said it, that was a lie
