

Long Way To Go (Reprise)

Dwight Yoakam

I've got a long way to go before I get there
I've got a lot of field to hoe with the sun so high
I've got a lot of miles to roll
And the next few only show
That there's still such a long way to go

Dreamin' is only dreamin'
Till Dreamin' is the only thing that's true

Wishin' is only wishin'
Till my only thought's the wish to be with you

I've got a long way to go before I get there
I've got a lot of field to hoe with the sun so high
I've got a lot of miles to roll
And the next few only show
That there's still such a long way to go

Hopin' doesn't feel like hopin'
If I can feel your heart hopin too

Touchin' doesn't feel like touchin'
Until I feel the next touch from you

I've got a long way to go before I get there
I've got a lot of field to hoe with the sun so high
I've got a lot of miles to roll
And the next few only show
That there's still such a long way to go
