

# Hell's Final Blessing

## Dying Wish

Desperation  
Devastation  
The ocean will swallow us whole  
Healing as we decompose

A burning horizon stretched far as one can see  
Mistakes unravel into destruction  
Overdue for bleak consequence  
We lit the match that will cleanse us all

With our final breath  
She sighs in relief  
Poisoned by humanity  
We died to set her free

Desperation  
Devastation  
The ocean will swallow us whole  
Healing as we decompose

Sealed by denial  
Empowered by lies  
We have arrived to  
A justified demise

The vengeance of the earth  
Will rise to our throats  
Witness humanity  
Come to a close

We lit the match that will cleanse us all  
We lit the match that will cleanse us all  
We lit the match that will cleanse us all  
We lit the match that will cleanse us all

We lit the match that will cleanse us all  
We lit the match that will cleanse us all  
We lit the match that will cleanse us all  
We lit the match that will cleanse us
