

Kiss of Judas

Dying Wish

Disgraceful hate
Countless enemies
Seized by darkness
The blood drawn
Left us hollow

We are robbed of our innocence
Starved for second chances
Conspiring when we sleep
Imprisoned by belief

Blind to the hardest truth
Bleeding from the same wound
Faith lost
Destined to die

We are numb, numb to the suffering
Content with lying in a bed of snakes

I have been condemned to sleepless nights
A lifetime forced to stomach brutality
Indifference holds no weight in my mind
They made us conditioned to obey

Born in the fire
We were damned from the start
We all burn the same
Bitch
