

# Never Get Over You

Dylan Conrique

Sorry I didn't call  
Know that I've been a bit distant  
Would've thought by this Fall everything would be a bit different  
I miss the days we would spend laying in the grass in your backyard  
Never talked about the end, guess we never thought about that part

Don't think I'll ever get over you  
(Don't think I'll ever get over you)  
I just wanna know what you're going through  
(Just wanna hear what you're going through)  
When I go home alone, I think about how nothing had to go wrong  
For us to grow apart, lose a friend, I'd crawl right back if you do  
'Cause I'll never get over you

Remember when you dropped me off  
Now we're six months into college  
And at the end, my new friends, heard way too much about it  
Miss the things we would hate, now they're all one big reminder  
Of all the ways that we've changed  
Thought we'd grow up together

Don't think I'll ever get over you  
(Don't think I'll ever get over you)  
I just wanna know what you're going through  
(Just wanna hear what you're going through)  
When I go home alone, I think about how nothing had to go wrong  
For us to grow apart, lose a friend, I'd crawl right back if you do  
'Cause I'll never get over you

In the car, I'd put on our playlist  
When we got too drunk and spilled wine on the table  
Thinking about it just makes it all the more true  
Don't think I'll ever get over you
