

# Ride

Dylan Gardner

We found the answer under the setting sun  
We found the color, the night never felt so young

And it's time, are you ready?  
For the moment to show itself  
'Cause tonight we're escaping  
Yeah we're going somewhere I can't tell

I wanna fall in love, head over heels  
Under the downtown lights  
'Cause we don't have to know where this road is going  
Why don't we take a ride?  
I wanna fall in love like a careless stranger  
Under the moonlight eyes  
'Cause we don't have to know where this road is going  
Why don't we take a ride?

'Cause we found a secret hidden in the words we speak  
We didn't know that love was always at our feet

And it's time, are you ready  
Though we hardly even know ourselves  
Here at night, I can feel it  
Yeah we're going somewhere I can't tell

I wanna fall in love, head over heels  
Under the downtown lights  
'Cause we don't have to know where this road is going  
Why don't we take a ride?  
I wanna fall in love like a careless stranger  
Under the moonlight eyes  
'Cause we don't have to know where this road is going  
Why don't we take a ride? Take a ride  
Why don't we take a ride? Take a ride

I wanna fall, wanna fall, wanna fall in  
Ooh, I wanna fall, wanna fall, wanna fall in

I wanna fall in love, head over heels  
Under the downtown lights  
'Cause we don't have to know where this road is going  
Why don't we take a ride?  
I wanna fall in love like a careless stranger  
Under the moonlight eyes  
'Cause we don't have to know where this road is going  
Why don't we take a ride? Here tonight  
Why don't we take a ride? Here tonight
