Sign Language

Dylan Gardner

You got to tell me if you think I'm moving too fast
I want to give you all the loving that you never had
I try to reach you but I always seem to trip and fall
If I could only be a thousand stories tall

Cause it feels like I am stranded
In the silence of tonight
Can't you see my head is spinning
And my heart is on the line

We could use our hands
And talk all night

All I need is just a little
Sign language
Show me that you're mine baby
And say what you wanna
Say what you want

All I need is just a little
Sign language
Turn off all the lights baby
And say what you wanna
Say what you want

Cause I've been waiting
I've been wanting
I've been holding on
And all this time I've
Been pretending like
There's nothing wrong

I try to reach you but
I'm caught up looking in your eyes
If you could only see
The way I feel inside

Cause it feels
Like I am stranded
In the silence of tonight
Can't you see my head is spinning
And my heart is on the line

We could use our hands
And take our time

All I need is just a little
Sign language
Show me that you're mine baby
And say what you wanna
Say what you want

All I need is just a little
Sign language
Turn off all the lights baby
And say what you wanna
Say what you want

I guess we got
To work on our communication
Cause I don't want to let a good thing pass
Don't want to end up in the same old situation
I just want to make the moment last
One more night
Is all I ask

You know I've never
Wanted something so bad

All I need is just a little
Sign language
Show me that you're mine baby
And say what you wanna
Say what you want

All I need is just a little
Sign language
Turn off all the lights baby
And say what you wanna
Say what you want
