

Too Afraid To Love You

Dylan Gardner

I tried to just believe I wouldn't fall on my knees
But yet again I always fall for this kind of thing
I tried to just believe it wouldn't end in defeat
I never thought that I would be in this same place
I always turn around and then it's gone these days
And after all of it, I'm not in control of it
I'm done with this
I'm all alone in this
Baby, listen to me

That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you
You got me all start shaking, my heart is being taken
And I'm too afraid to love you

Yeah my, my, my I think I'm wasting my time, time, time
That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you

All the things you've said have just been turned around
I've finally come to the end and now I'm turning around
I couldn't help but leave and now it's all over now
I've just been trying way too hard to stay over here
I've just been trying way too hard to stop all the tears
And after all of it I'm not in control of it
I'm done with this
I'm all alone in this
Baby, listen to me

That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you
You got me all start shaking, my heart is being taken
And I'm too afraid to love you

Yeah my, my, my I think I'm wasting my time, time, time
That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you

Can you feel your heartbeat still?
Are you in the past?
Am I stuck here too?
All the little things I've tried to say
You've thrown it all away

That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you
You got me all start shaking, my heart is being taken
And I'm too afraid to love you

Yeah my, my, my I think I'm wasting my time, time, time
That's when my heart starts breaking
My mind starts aching and I'm too afraid to love you

You got me all start shaking, my heart is being taken
And I'm too afraid to love you
Yeah my, my, my I think I'm wasting my time, time, time
That's when my heart starts breaking

My mind starts aching and I'm too afraid to love you
