

All About It

Dylan Marlowe

Yeah, we can kick a little dust on a dirt road
Put a little bit of slow on the radio or
Get lost out there in the corn rows
We can hang downtown till the night's gone
Catch us a little buzz in the neon
Whatever side of the tracks you wanna be on
Yeah, anythin' you wanna do, girl I'm all about

Yeah, I'm all about the way you shine when I pick you up
Make this bucket of rust like a brand new truck
Yeah, that kiss I can't live without it, yeah I'm all about it
I'm all about the way your smile lights up the room
Make the moon and the stars all jealous of you
Stole my heart and now your fingers got me wrapped around it
And I'm all about it

I love the way your red lips sip red wine
I love 'em even more when they're all mine
Ain't a minute with you that ain't a good time
Yeah, anythin' you wanna do, girl I'm all about

Yeah, I'm all about the way you shine when I pick you up
Make this bucket of rust like a brand new truck
Yeah, that kiss I can't live without it, yeah I'm all about it
I'm all about the way your smile lights up the room
Make the moon and the stars all jealous of you
Stole my heart and now your fingers got me wrapped around it
And I'm all about it (yeah)

Yeah, I'm all about the way it hits me
You're the one thing I got right
Every night I pray God gives me you for the rest of my life

Yeah, I'm all about the way you shine when I pick you up
Make this bucket of rust like a brand new truck
Yeah, that kiss I can't live without it, yeah I'm all about it
I'm all about the way your smile lights up the room
Make the moon and the stars all jealous of you
Stole my heart and now your fingers got me wrapped around it, a
nd I'm all about it

(Yeah, I'm all about it)
