

I Never Miss

Dylan Marlowe

I never miss, I never miss
When it comes to

I've let a few big bucks get away
I've hooked a few fish and made the line break
And when I'm swinging for the fences
I can't forget to mention
And now and then I whiff when I'm at the plate
Yeah

No, I ain't perfect, I'm human
No, I ain't no modern-day John Wayne
But I'll say I'm sharp with my shootin'
When it has to do with how you got away

'Cause I never miss, I never miss when it comes to
It all coming back
There's a whole lot of past I'd undo
When your memory winds up in my crosshairs sitting
Swear every time I pull that trigger, I hit it, girl
I never miss
I never miss when it comes to missing you
(I never miss, I never miss when it comes to)

I missed a few chances to treat her right
I missed a few can't afford to miss 'em signs
So, if we're talking blame, well baby it's mine
I went and missed my shot, so maybe that's why

I never miss, I never miss when it comes to
It all coming back, there's a whole lot of past I'd undo
When your memory winds up in my crosshairs sitting
Swear very time I pull that trigger, I hit it, girl
I never miss
I never miss when it comes to missing you

I'm ten out of ten, I'm batting a thousand
No matter how you spin it, there's no way around it

I never miss, I never miss when it comes to
It all coming back, there's a whole lot of past I'd undo
When your memory winds up in my crosshairs sitting
Swear very time I pull that trigger, I hit it, girl
I never miss
I never miss when it comes to missing you
(I never miss, I never miss when it comes to)
Missing you
(I never miss, I never miss when it comes to)
Missing you
