

I Will (When You Do)

Dylan Marlowe

If you wanna know when I'll stop leaving my stuff on purpose
And just so I can come back and get it when the sun stops burning
Take your name out of my phone in the long way home so I don't pass your place
You say that you wanna know when I get moved on, I could ask you the same thing

I will when you do
But you won't so I ain't
Wish like hell that I could
Get you gone but I can't
Turn the light off on the front porch
Turn the lock when you knock on my door
If you wanna know when I'm gonna go and get over you
Well, I will when you do
I will when you do

Looking in your eyes is like a starlit sky
But I pretend I don't know 'cause it'll hurt to say goodbye
When we go wrong, how do we lose it all?
When do we say enough?
Who's gonna take the blame for a heart when it breaks?
Who's gonna give it shock, no?

But I will when you do
But you won't so I ain't
Wish like hell that I could
Get you gone but I can't
Turn the light off on the front porch
Turn the lock when you knock on my door
If you wanna know when I'm gonna go and get over you
Well, I will when you do
I will when you do

Oh-oh, oh-oh
Who's gonna wave that white flag?
Oh-oh, oh-oh
Who's gonna leave and not come back?
I will when you do
I will when you do

I will when you do
But you won't so I ain't
Wish like hell that I could (Like hell that I could)
Get you gone but I can't
Turn the light off on the front porch
Turn the lock when you knock on my door
If you wanna know when I'm gonna go and get over you (Get over you)
Well, I will when you do
I will when you do

I will when you do
I will, I will, I will
When you do
