

Place For Me

Dylan Marlowe

Couple verses I read said Jesus drank wine
What's the difference 'tween that and cold beer?
If the truth can be heard through a few choice words
I bet I could bend his ear
The straight and narrow walk gets a little bit lost
Gets covered in dust, kind you can't wash off
But if a little bit of grace will get you through the gates
Then things are lookin' up down here

If rednecks got a place up in Heaven
My first Chevy's waitin' on me
And I can see it right now, best seat in the house
Is a deer stand up a pine tree
If the Sunday crowd gets a little too loud
And grand daddy's there you best believe
That if rednecks got a place up in Heaven
Then there's a place for me, a place for me

If tractors don't break down, whole thing's a hometown
Y'all come back and hee haw
If there's grease on jeans and lines in the creeks
And you can hunt all year long
As sure as the sky is blue and the streets are gold
Where I'm going when he calls me home

If rednecks got a place up in Heaven
My first Chevy's waitin' on me
And I can see it right now, best seat in the house
Is a deer stand up a pine tree
If the Sunday crowd gets a little too loud
And grand daddy's there you best believe
That if rednecks got a place up in Heaven
Then there's a place for me, a place for me
A place for me

If rednecks got a place up in Heaven
My first Chevy's waitin' on me
And I can see it right now, best seat in the house
Is a deer stand up a pine tree
If the Sunday crowd gets a little too loud
And grand daddy's there you best believe
That if rednecks got a place up in Heaven
Hell, there's a place for me, a place for me
A place for me
A place for me
