

## Record High

Dylan Marlowe

It's gonna be a record high  
Beers I've drank on a Tuesday night  
Reds I've smoked on the porch outside, here tonight  
It's looking like, it's gonna be a record high

Of times, I've played that get her back song  
In this little bit of time she's been gone, ain't been long  
Who'd of thought, it would get this bad  
I ain't ever seen nobody leave somebody like that

'Cause I ain't never seen gravel fly that high  
Ain't never seen more tears in a pair of green eyes  
I ain't never seen taillights burn that bright  
Never heard her cuss more than she did last night  
I ain't never, it's gotta be a record high goodbye

It's gonna be a record low  
For how far from full this Jack will go  
From just one night in this house alone, with her ghost  
Heaven only knows if I'll ever let her go

'Cause I ain't never seen gravel fly that high  
Ain't never seen more tears in a pair of green eyes  
I ain't never seen taillights burn that bright  
Never heard her cuss more than she did last night  
I ain't never, it's gotta be a record high goodbye  
Yeah, goodbye

I ain't never seen gravel fly that high  
Never seen more tears in a pair of green eyes  
I ain't never seen taillights burn that bright  
Never heard her cuss more than she did last night  
I ain't never, it's gotta be a record high goodbye
