

# Fireworks

Dylan Schneider

4th of July, cypress cove  
Meeting our friends to watch the show  
A bunch of boats tied up on the dock  
You gave me that look and we drifted off  
Over to the other side of the lake  
I can hear them playing "Born in the U.S.A"  
I dropped an anchor right over the side  
And girl all night I saw

Fireworks  
When your lips hit mine  
Never took one look up at the sky  
But there were colors coming at me like a light show  
Tangled in your love with my eyes closed  
Fireworks  
We were burning hot  
99 degrees and a million watts  
We were Roman candle rockets in the nightfall  
Holding you tight baby I saw fireworks

Your midnight hair falling down  
And there were sparks flying all around  
I feel like we were on top of the sky  
Baby we were our own kinda high  
All our friends were blowing up our phones  
We just let it ring on and on  
All-American girl had to get you alone  
We stayed right there and made our own

Fireworks  
When your lips hit mine  
Never took one look up at the sky  
But there were colors coming at me like a light show  
Tangled in your love with my eyes closed  
Fireworks  
We were burning hot  
99 degrees and a million watts  
We were Roman candle rockets in the nightfall  
Holding you tight baby I saw fireworks

Everybody thought we missed it  
We were just too busy kissing  
To pay attention  
Girl we felt the thunder  
Loving each other under those fireworks

Fireworks  
When your lips hit mine  
Never took one look up at the sky  
There were colors coming at me like a light show  
Tangled in your love with my eyes closed  
Fireworks  
We were burning hot  
99 degrees and a million watts  
We were Roman candle rockets in the nightfall  
Holding you tight baby I saw fireworks
