

How Does It Sound

Dylan Schneider

How does it sound
When I cross your mind?
When you're thinking bout us on a Friday night?
Are we black top burning, spinning the tires?
Are we slow dancing
To a vinyl record, to a mixtape
A cover band playing, on Broadway?
Is it quiet in the background or is it turned up loud?

Do you hear that rain on the roof of an F150
Sitting up high looking out on the city
Me and you melting down something ice cold
While we're heating it up
Is it a little George Strait or a little more Tim McGraw?
It don't matter to me, girl, I like it all
When you're thinking bout me and you falling in love
Like we are right now

How does it sound if we do something crazy?
Ditch the crowd, get all alone, baby
Make some noise, make a soundtrack
Close your eyes, girl, do you hear that

Rain on the roof of an F150
Sitting up high loooking out on the city
Me and you melting down something ice cold
while we're heating it up
Is it a little George Strait or a little more Tim McGraw?
It don't matter to me, girl, I like it all
When you're thinking bout me and you falling in love
like we are right now

How does it sound?
And are we singing along?
How does it sound?
While we're here, play on all night long

Do you hear that rain on the roof of an F150?
Sitting up high looking out on the city
Me and you melting down something ice cold
while we're heating it up
Is it a little George Strait or a little more Tim McGraw?
It don't matter to me, girl, I like it all
When you're thinking bout you and me falling in love
like we are right now

How does it sound?

(Hear that rain on the roof of an F150) How does it sound?
(Sitting up high looking out on the city) How does it sound?
(You and me melting down something ice cold) So tell me, girl, how does it sound?
