

## Puzzled

Dylan Schneider

Sixteen years old no idea  
What life has got in store  
I just sing songs on my phone  
But then I hit the road  
To the big city where you take the dream  
This ain't Indiana no more  
Yeah I ditch school some call me crazy  
And then I go on tour

Got friends, a girl, and family  
Back home I don't see much  
Growing up and time alone  
Keeping my head all mixed up  
So I mixed up a couple drinks  
Thinking I'd feel better  
Yeah I've done wrong  
I've done right  
Trying to put it all together

I found a piece in Tennessee  
Left some back in Indiana  
There's one that went missing somewhere down in Alabama  
The bigger picture ain't all there  
But someday I pray it is  
Through all the tears through all the struggle  
Eight short years it's had me troubled  
But I know one day I'll find out why this life  
Has kept me puzzled

Mom and daddy split  
I think I fall in love  
The world shuts down  
I go back home  
For about the next eight months  
And live a little bit of this life  
In that house that I'm still missing  
We tried to save it  
Sometimes things go broke and you can't fix 'em  
That's just another part of me that's gone at the cost of living

I found a piece in Tennessee  
Left some back in Indiana  
There's one that went missing somewhere down in Alabama  
The bigger picture ain't all there  
But someday I pray it is  
Through all the tears through all the struggle  
Eight short years it's had me troubled  
But I know one day I'll find out why this life  
Has kept me puzzled

I found a piece in Tennessee  
Left some back in Indiana  
There's one that went missing somewhere down in Alabama  
The bigger picture still ain't there  
But someday I pray it is  
Through all the tears through all the struggle  
Eight short years and I'm still troubled

But I know one day I'll find out why this life  
Yeah I know one day I'll find out why this life  
Has kept me puzzled  
Yeah I'm still puzzled
