

Yeah, I know you had plans with your friends tonight
Supposed to go out and see some band you like
Aw, but you ain't even ready yet
Got your headphones on and your hair's still wet
Just watchin' you dance around
got me thinkin' we ain't even gotta go downtown
Starstruck, lookin' at you in the mirror
I think I wanna just stay right here

You can be my little rockstar, baby
Don't worry 'bout me, just do your thing
Spotlights on you now, baby
No, you ain't even gotta sing
Girl, you make me wanna clap, clap, clap my hands
Got a front row seat and watchin' you dance
I can do it all night long
So, go on, go on
Be my little rockstar, baby

Baby, make that hairbrush your microphone
Go ahead, turn it up and turn me on
Don't you know, I'm your number one fan
Good to go, baby, you don't need no band
I'd stand in line for a ticket
Just to get some of your sweet kissin'
You got me trippin', ain't even sippin'
The way you move, you got all my attention

You can be my little rockstar, baby
Don't worry 'bout me, just do your thing
Spotlights on you now, baby
No, you ain't even gotta sing
Girl, you make me wanna clap, clap, clap my hands
Got a front row seat and watchin' you dance
I can do it all night long
So, go on, go on
Be my little rockstar, baby
Be my little rockstar, baby

Just go girl, you got it
My hearts in, your pocket
The way that, you rock it
Don't stop it

You can be my little rockstar, baby
Don't worry 'bout me, just do your thing
Spotlights on you now, baby
No, you ain't even gotta sing
Girl, you make me wanna clap, clap, clap my hands
Got a front row seat and watchin' you dance
I can do it all night long
So, go on, go on
Be my little rockstar, baby
Be my little rockstar, baby
Be my little rockstar, baby
Be my little rockstar, baby
Just do your thing
