

Want You Back

Dylan Schneider

I've been seeing you around town
Every time I go out
It gets harder every time
Yeah, we're sticking to the small talk
Even though we both want more
But baby I
Play it off
No big deal
Wish you knew how I feel, girl
If I could speak my mind
I'd tell you how I want you

Back in my arms
Back in my heart
Back in the back seat of my car
Underneath the firefly light
On a Saturday night
Looking up at the stars cause girl you're in them
Back in my mind
All of the time
Wishing we could take it back to the start
Back when it was you and me
And we believed nothing could tear us apart
It's true
Baby, I want you back
Baby, I want you

Back there on my back porch
Sneakin' out the screen door
Tryin' not to get caught
Way back on a back road
Flippin' through the radio
'Til we hear our song
Comin' on
Turn it up
Sing along
Feel the rush, girl
Don't ya know I'd do anything to get you

Back in my arms
Back in my heart
Back in the back seat of my car
Underneath the firefly light
On a Saturday night
Looking up at the stars cause girl you're in them
Back in my mind
All of the time
Wishing we could take it back to the start
Back when it was you and me
And we believed nothing could tear us apart
It's true
Baby, I want you back
Baby, I want you
(Repeat Chorus)

Baby, I want you back
Baby, I want you
