

# We've Been Here Before

Dylan Schneider

Hard times  
I know we've been navigating hard times  
Drivin' home in silence and the car light  
Could this be the end  
Sleepin'  
I know you've been having trouble sleepin'  
Trust in me the light is gonna creep in  
Just around the bend  
Don't you know

We've been here before  
We've been here before  
Hold on tonight we've got to remember  
We've been here before  
We've been here before  
You know it's only gonna get better  
Oh, oh  
We've been here before

Last time  
This won't be the first time or the last time  
Maybe we were perfect in a past life  
Nothing is easy  
Breakin'  
Even though we bend, we won't be breakin'  
Giving all I got, nobody's taking  
You away from me  
Don't you know

We've been here before  
We've been here before  
Hold on tonight we've got to remember  
We've been here before  
We've been here before  
You know it's only gonna get better  
Oh, oh  
We've been here before

Breakin'  
Even though we bend, we won't be breakin'  
Giving all I got, nobody's taking  
You away from me  
Don't you know

We've been here before  
We've been here before  
Hold on tonight we've got to remember  
We've been here before  
We've been here before  
You know it's only gonna get better  
Oh, oh  
We've been here before
