Anniversary

Dylan Scott

I know you're getting ready
I know we're in a hurry
Got a dinner reservation
Around 8:30
So whatcha say we go ahead and cancel it
I can barely handle you in that dress

With skin that smooth
It's hard to keep my hands off you
Got a few things in mind I wanna do
Baby, why save it
When I can lay ya down now and later
Put some rose petals out on the sheets
Make this bedroom feel like a suite
Girl ya know we ain't even gotta leave
Tonight I'll love you like, love you like it's our anniversary
(Like it's our anniversary)

I can see it your eyes
Girl, ya think I'm playing
But we ain't going nowhere
This room is where we're staying
We can make it like a second honeymoon
Gonna love like the night that I said I do

With skin that smooth
It's hard to keep my hands off you
Got a few things in mind I wanna do
Baby, why save it
When I can lay ya down now and later
Put some rose petals out on the sheets
Make this bedroom feel like a suite
Girl ya know we ain't even gotta leave
Tonight I'll love you like, love you like it's our anniversary
(Like it's our anniversary)

With skin that smooth
It's hard to keep my hands off you
Got a few things in mind I wanna do
Baby, why save it
When I can lay ya down now and later
Put some rose petals out on the sheets
Make this bedroom feel like a suite
Girl ya know we ain't even gotta leave
Tonight I'll love you like, love you like it's our anniversary
(Like it's our anniversary)

Gonna love you like it's our anniversary
It's our anniversary
