

Catch Me If You Can

Dylan Scott

I know...a secret hideaway
A place that we go, where the cool grass meets the lake
Well she crosses her arms, and slowly takes her t-shirt off
And she turns around and smiles at me and lets her long hair fall

She said catch me if you can I almost caught her
I'm knee deep now with my boots full of water
Nothing but the moon light on her skin
And I'm jumping in..

I know...how deep this water gets
She'll hold on, with her arms around my neck
She always swims just fast enough to get caught
And she's laughing at me trying to pull my t-shirt off

She said catch me if you can I almost caught her
I'm knee deep now with my boots full of water
Nothing but the moon light on her skin
And I'm jumping in...

She's out there floating in my baseball cap
Ohh that girls kinda crazy, but i like her like that

She said catch me if you can I almost caught her
I'm knee deep now with my boots full of water
Nothing but the moon light on her skin
No theres nothing, but the moon light on her skin
And I'm jumping in
I'm jumpin in...
