

I'm Over You

Dylan Scott

Where there's a cloud don't mean there's rain
Tears in my eyes don't mean there's pain
Don't flatter yourself, I'm over you

Things aren't always what they seem
You can't believe everything you read
Over my face, I'm over you

You heard I'm drinkin' more than I should
And I ain't been lookin' all that good
Someone told you I was takin' it rough
But why they makin' those stories up
When I'm over you?

There are times if you've been around
You would've seen me broken down
But now I'm not, I'm over you

So if I seem just a little bit cold
It only means you've lost the hope
You had on me, I'm over you

You heard I'm drinkin' more than I should
And I ain't been lookin' all that good
Someone told you I was takin' it rough
But why they makin' those stories up
When I'm over you?

You heard I'm drinkin' more than I should
And I ain't been lookin' all that good
Someone told you I was takin' it rough
But why they makin' those stories up
When I'm over you?
I'm over you
I'm over you
