

Lay Down With You

Dylan Scott

It's 5 am
Back at it again
Another day another dime
Getting home to you
Is what gets me through
Till it's quittin' time

When I walk in the door
Get to kiss your pretty smile
That's when it all gets better
We can sip a little wine
Spend a little time
Baby you and I alone together
The best part of my day is when it's through
Nothing left to do
But kick off these boots
And lay down with you

Gonna lock in your eyes
Kiss the whole world goodbye
And every inch of you
I'm gonna wrap you up
With all of my love
That's what I'm gonna do

When I walk in the door
Get to kiss your pretty smile
That's when it all gets better
We can sip a little wine
Spend a little time
Baby you and I alone together
The best part of my day is when it's through
Nothing left to do
But kick off these boots
And lay down with you

Girl when I walk in the door
Get to kiss your pretty smile
That's when it all gets better
We can sip a little wine
Spend a little time
Baby you and I alone together
Yeah, the best part of my day is when it's through
Nothing left to do
But kick off these boots
And lay down with you

All I want to do
Is lay down with you
