

## Makin' This Boy Go Crazy

Dylan Scott

Never seen a tan look so good, sunshine's treating you like it should.

You gotta know the kinda glow you're giving off, baby that's dangerous.

The way your hair blows in the wind, takes me to heaven and back again.

The windows down, we're ridin' round, I bet you don't know what I'm thinking

Oh girl you make me feel like whoa,  
Spinning me outta control with every little move you're makin'  
Driving me wild if you know what I'm saying,  
Hey, shoot another smile my way,  
You're makin' this boy go crazy, crazy, crazy... yea

Ain't no guessing 'bout where you're from, when that southern drawl slips off your tongue,  
Your little town is coming out and every time it turns me on baby,

I can catch a buzz without a drink, that's what your body does to me

Every kiss is like a sip, I wanna taste, over and over.

Oh girl you make me feel like whoa,  
Spinning me outta control with every little move you're makin'  
Driving me wild if you know what I'm saying,  
Hey, shoot another smile my way,  
You're makin' this boy go crazy, crazy, crazy... yea, whoa oh

Oh, girl you make me feel like whoa,  
Spinning me outta control with every little move you're makin'  
Driving me wild if you know what I'm saying,  
Hey, shoot another smile my way,  
You're makin' this boy go crazy, crazy, crazy... I'm like

Oh girl you make me feel like whoa,  
Spinning me outta control with every little move you're makin'  
Driving me wild if you know what I'm saying, hey, shoot another smile my way,  
You're makin' this boy go crazy, crazy, crazy...  
You're makin' me, you're makin' me, you're makin' me go crazy
