

All I Need

Dylan Sinclair

You say listen good and I'm all yours
I say I've got some and you close doors
When I speak ambition, you just go mute
I have an addiction to pleasing you nonetheless

All I need to know, are you with me?
The way you say you are
All I need to know, are you with me?

You say to speak up and so I do
But when I talk up, you don't even move
When you say you've got me through thick and thin
It doesn't seem so, my intuition tells me so

All I need to know, are you with me?
The way you say you are
All I need to know, are you with me? Oh

(All I need to know)
All I need to know, are you with me?
(All I need to know) Ouu
(All I need to know)
All I need to know, are you with me?
(All I need to know)
All I need to
All I need to
