

Angels

Dylan Sinclair

Bless me, I need you now
Treating her foul
Watch over my queen
I failed to do her right
I held on tight
To all the wrong things

Heal me
Transmissible
Great melody
Who causes great pain
Love to
Intoxicate
Inebriate
The soul of our sins

Angels catch us, we're flying away
Please rematch us, I promise I'll pray
Angels attach us, we're flying away
Don't dispatch us
(Promise I'll pray)
(Promise I'll pray)
(Promise, angels)

Angels catch us, we're flying away
Please rematch us, I promise I'll pray
Please catch us, we're flying away'
Don't dispatch us
(Oh, oh, oh)
