

## Get Away

Dylan Sinclair

I'd like to roll a blunt and light it  
Catch a ride on the moon tonight  
Feel it in my bones, deep inside  
What a blessing to be alive  
And my mistakes make me great  
Peace is hard to come by  
But there's hope, I'll find it  
On my own time, yeah

Just need to get away, away, away  
I won't be gone for long  
I will not do you wrong  
Just get away, away, away  
No, not too long  
You'll hear from me  
Just get away, away, away  
No, I won't be gone for long  
I will not do you wrong  
Just get away, away, away  
No, not too long  
You'll hear from me soon enough  
Yeah, yeah, yeah, oh

I lose way too often  
I know that I'm lost and  
(I understand) That can change  
I'm just a man who wants a break  
I really crave to get away

If I'm being blunt, I need a blunt  
If I light it up, will the pressure lighten up?  
Just want to get away (Away, away, away)  
Pardon my mistakes, yeah  
If I'm being blunt, I need a blunt  
If I light it up, will the pressure lighten up?  
Just want to get away (Away, away, away)  
Pardon my mistakes, yeah

Submit yourselves to God  
Resist the Devil  
And he will flee from you  
Submit yourselves to God  
Resist the Devil  
And he will flee from you
