

I LO<3 MY EX

Dylan Sinclair

I love my ex, yeah, she's a champ
She used to ride me like a ramp
I wanna give her love today
But I left her love for change of pace
My ex a champ, oh yes, I love her
But I cut her, no, I couldn't cuff her
I let her go so we be free
Though all she'd ever want was me

Should I send this text to my ex?
Should I just let her know I wish none but the best?
It won't help her get over if I don't let it rest
Chilling with all them hoes, it put me to the test

I don't give kisses sober
Guess I'm not really over it
Wanna know how she's been
Is her heart getting colder?

Should I send this text to my ex, ayy
Who keeps that pussy damp?
Wonder who keeps my baby safe
Rubbing her stomach when she cramp
Singing to her like babyface (Like I do)
See I did some damage now she's tougher (Tougher)
My decision has made us suffer (Love her)
I broke her heart, sayin' this ain't it
Now all her friends say I ain't shit, mmm

Should I send this text to my ex?

Chilling with all them hoes will put her to the test
