# IMY

**Dylan Sinclair**

It's been way too long
We've been busy
You're oceans away
Say you miss me

I go outside
But you're on my mind
The streets comfort me
Without your company

But can
I just say I miss you
I don't even wanna kiss you right now
I just wanna hold you
Can you tell that I miss you
And I really just wish you were around

I'm chill most of times
And easy going
But you, you get me relaxed
When you're bad blowing

I dropped out of school
I don't follow rules but
I should follow you through

Cause I
I keep sayin' I miss you
I don't even wanna kiss you right now
I just wanna hold you
Can you tell that I miss you
And I really just wish you were around

Do you hear me
I'm fallin', I'm callin' for you

It's been way too long
We've been busy
