

# Open

Dylan Sinclair

Tell me what I gotta do if I need to convince you I'm not playing  
Every time I make moves you don't really say much and it should drain me  
But I'm patient  
'Cause I know you get this everyday  
But I will chase it  
Like I'm racing  
Then embrace it  
And treat you like the goddess that you are  
You're the baddest that I seen I'm not just talking by the bar  
You don't believe me  
Girl I need thee  
Oh I need thee

Oh I could put my pride and that aside  
When I'm at the top I want you laying by my side  
You can take your time with me  
Confide in me  
I'll show you what I'm 'bout  
Just try to be  
For me

Open, open  
(Open)  
Open, open  
(Let your guard down we should start now to be)  
Open, open  
(Open)  
Open, yeah

Oh I understand all of the reasons you're resistant  
Yes I'm young and you know guys in my position  
They're looking left and right  
Everybody with their main and sides  
Yet with I  
I can show you what consistency looks like

Committed to what's mine  
I'm smitten with your fine self  
I mean well with you  
With you believe that I

Oh I could put my pride and that aside  
When I'm at the top I want you laying by my side  
You can take your time with me  
Confide in me  
I'll show you what I'm 'bout  
Just try to be  
For me

(Open up to me)  
Open, open  
Open, open  
(Let your guard down we should start now to be)  
Open, open  
Open, yeah

Open up, open up to me

Open up to me  
Open up to me  
Open up to me
