

# Hope

Dymytry

Hidden and a deep  
It so hard to sleep  
Someone hold me closer  
The fears form the past  
There are doomed to last  
Then break you over and over

Nothing's gonna be the same  
Hold my bread forget my name  
In your arms I'm hiding  
Your heart beats inside me  
Oh baby hold me closer

There is hope  
And it's making me breathe again  
There is hope  
And it's filling my heart again  
No matter how cold the wind may blow  
I will not give up I won't let go  
There is hope  
And it's making me breathe again

Time and time again  
My trust turns to pain  
Someone take me away from here  
As these days go by  
There's nothing more to this life  
I can feel the end is near

Nothing's gonna be the same  
There's no one but myself to blame  
In your arms I'm hiding  
Your heart beats inside me  
Oh baby hold me closer

There is hope  
And it's making me breathe again  
There is hope  
And it's filling my heart again  
No matter how cold the wind may blow  
I will not give up I won't let go  
There is hope  
And it's making me breathe again

There is hope  
And it's making me breathe again  
There is hope  
And it's filling my heart again

There is hope  
And it's making me breathe again  
There is hope  
And it's filling my heart again  
No matter how cold the wind may blow  
I will not give up I won't let go  
There is hope  
And it's making me breathe again

There is hope  
There is hope  
There is hope  
And it's making me breathe again
