

Never Gonna Die

Dymytry

I see fear in your eyes, but don't worry, my friend
I will carry you out of the darkness again
We will not die
Take my hand and you shall feel
We will not die
That eternity is real

We're never gonna see the end
We're never gonna die, my friend
Until the light forever takes us
You're never gonna die, my friend
We're never gonna see the end
We're never gonna die, my friend
Until the night forever fades away
You're never gonna die, my friend

We will go to a place without lies, rules and tears
Where no questions are asked and answers have disappeared
We will not die
Take my hand and let me heal
We will not die
'Cause your pain isn't real

We're never gonna see the end
We're never gonna die, my friend
Until the light forever take sus
You're never gonna die, my friend
We're never gonna see the end
We're never gonna die, my friend
Until the night forever fades away
You're never gonna die, my friend

You're never gonna die
No eternal goodbye
Far away from all lies
You're never gonna die

Just never die
Never die
Never die
Never die
Never, never, never die

When the night has faded away
You will forever, forever stay
We're never gonna see the end
We're never gonna die, my friend
Until the light forever takes sus
You're never gonna die, my friend
We're never gonna see the end
We're never gonna die, my friend
When the night forever fades away
You will forever, forever stay
