

# Stronger

Dymytry

Come push me closer to the edge  
I won't surrender  
Come try to put me to the ground  
I won't go under

With every time you try to put a chain on me  
My strength increased  
With every time you've tried to defeat me  
Can't you see  
You can't tame the beast

You never see me hiding  
I will hold my head up high  
Set sails and leave the past behind  
See me rising  
Cut the ties and drift beyond the sky  
I'm stronger, I will fly  
Stronger, I am stronger  
Stronger, growing stronger

I will never blame you if you try  
You will never beat me  
Give me your best shot, aim up high  
There's no way to stun me

I won't ever kick you even at your weakest  
It's just a matter of morals, not the one who's quickest  
Got you on your knees but I'm not gonna hurt you  
Can't you see?  
You can't tame the beast

You never see me hiding  
I will hold my head up high  
Set sails and leave the past behind  
See me rising  
Cut the ties and drift beyond the sky  
I'm stronger, I will fly  
Stronger, I am stronger  
Stronger, growing stronger

Try to put me to the ground  
And try to take my faith  
With my back against the wall  
I am stronger than before  
Try to put me to the ground  
And try to take my faith  
With my back against the wall  
I am stronger, stronger than before

I will fly  
I will fly

You never see me hiding  
I will hold my head up high  
Set sails and leave the past behind  
See me rising  
Cut the ties and drift beyond the sky

I'm stronger, I will fly

I will fly

I will fly

I will hold my head up high

Set sails and leave the past behind

I will fly

Yes, I will fly, fly

Cut the ties and drift beyond the sky

I'm stronger, I will fly

Stronger

I am stronger

Stronger

I am stronger
