

# That's the Way I Feel About You

Dynasty

(Intro)

Oh, Oh...That's the way I feel about you  
That's the way I feel about you

(Verse 1)

What have you done to my heart  
No one ever made me feel this good...inside  
I knew you were special from the start  
You let me close enough to know exactly where you draw the line  
You had to be the one and only love in my life  
Well that suits me just fine

(Chorus 1)

That's the way I feel about you  
Girl don't you know, I don't want nobody else but you  
And won't rest til you'r mine  
That's the way I feel about you  
Baby, I'm sold on your love

(Verse 2)

Your love's like a wonder drug  
It has ridden all the pain I felt inside  
But now baby I'm hooked on your love  
And there's nothing I won't do, to get a bit of you  
Only one way, I could deal with my addiction this time  
Girl you must say you're mine

(Chorus 2)

That's the way I feel about you  
Ooh can't you see, that nobody else will do for me  
Cause you're one of a kind  
That's the way I feel about you

And only you, I know my mind won't last without your love

(Bridge)

I'm not ashamed to show  
(That's the way I feel about you)  
I feel for love  
I feel more just to let you know, that's the way I feel

(Verse 3)

You brought me joy, since your love I discovered  
(That's the way I feel about you)  
We'll have a lasting love, just give our hearts a chance  
So don't you know that I would sail the seven seas for you and me  
I would climb the highest mountain in the world for you girl  
There's nothin' I won't do... to prove my love is true  
(That's the way I feel about you)  
Baby, just give me a chance to give my all

(Chorus 3)

Baby, that's the way I feel about you  
I don't want nobody else but you, baby  
That's the way I feel about you  
I can't do without your love

(Repeat Bridge)

I'm not ashamed to show

(That's the way I feel about you)

I feel for love

I feel more just to let you know, that's the way I feel
