

The Only One

Dynasty

Don't wanna be just another one
I wanna be the only one with you
Don't wanna be a lonely one
I wanna be the only one with you

When we met, it first seemed like a casual thing
I had felt our affair was just another fling
But through time, I began to get into you
I must fast asleep 'cause you're my dream come true
Don't wake me
But when I'm awake, you're the only one that can make my dreams
come true
(Want you to love me, just me, all day)

Don't wanna be just another one
I wanna be the only one with you
Don't wanna be a lonely one
I wanna be the only one with you
(Happy me)

Our love was built on romance, it's all I ask of you
Won't you give us a chance, you're what I'm living for

Love is waiting patiently for the company of yours
Won't you love me, love me, I'm yours forever
Don't hurt
You got to understand, I'm falling head over heels for you
(Want you to love me, just me, all day)

Don't wanna be just another one
I wanna be the only one with you
Don't wanna be a lonely one
I wanna be the only one with you
(Happy me)

I'm yours forever—don't hurt me
Got to understand, I'm falling head over heels for you
(Want you to love me, just me, all day)

Don't wanna be just another one
I wanna be the only one with you
Don't wanna be a lonely one
I wanna be the only one
