

Brand New Day

Dynazty

Rise up from the ashes
Step into the light
Wake up from your nightmare
And open your eyes
Get yourself perspective
A new point of view
And you will see a world
That's been hidden from you

There is the dawn of a brand new day
There is the dawn of a brand new day

Hell is even closer
Than you've known before
If only you would look
It's right outside your door
An illusion they feed you
One you can't deny
Break out of this prison
And leave it all behind

This is...

A new dawn is rising
So break all your chains and fly
The nightmare is over
So wake up and see through the lies

You've risen from the ashes
You've stepped into the light
Woke up from your nightmare
And opened your eyes
You got yourself perspective
A new point of view
Now you see the world
That's been hidden from you

This is...
