

Break Into The Wild

Dynazty

Come, surrender to sweetness
Lift the shadows out of your life
And your mind will obtain a completeness
If you let your body decide
What you're longing to is what you gotta do
Every impulse you feel is correct
Come indulge in the madness
Bow before the feels you inject

Face me
Let's break into the wild
Make me feel alive

Time to start the contraction
Show me everything that you've got
And your mind will produce a reaction
A high I know you'll never forget
I am all you see and all you wanna be
I'm the smoking gun at your core
And you will erupt into action
A state you've never seen before

Face me
Let's break into the wild
Make me feel alive
Can't you see it's good to be free
Feels like being alive
Break me into the wild
Face me
Let's break into the wild
Make me feel alive
Can't you see it's good to be free
Feels like being alive
Break me into the wild
