

Bring The Thunder

Dynazty

We sweep across the nations, a mighty dynasty
We expect a salutation with the sign of victory
We'll show no mercy in this strife for legacy
Full speed ahead, the time has come for you to see

We're gonna blow you away
All away
You know we're here to stay
So take us on!

Bring the thunder!
For all to see
Bring the thunder!
Of ecstasy

Louder than an atom bomb, we're ready for a fight
We're raising hell, we are living for the night
Don't fear the enemy, we have a righteous cause
To spread the word around and demonstrate our force

We're gonna blow you away
All away
You know we're here to stay
So take us on!

Bring the thunder!
For all to see
Bring the thunder!
Of ecstasy

Bring the thunder!
All to see
Bring the thunder!
Ecstasy

So take us on!

Bring the thunder!
For all to see
Bring the thunder!
Of ecstasy

So take us on
Bring the thunder today
