

Catch The Night

Dynazty

Grab that feeling!
Grab that feeling!

Go to bed in the morning
Wake up in the evening
Drink a little faster
Loose the grip and get even wilder
Let your love keep growin'
Keep the feelings showin'
Move a little closer
Baby tonight you're the one I want

Well intoxicated
Don't get tired

Grab that feeling!
Before it fades away!
Drown your sorrows!
Or they will drown you
Grab that feeling!
And don't worry about tomorrow
Catch the night while you can

Sharp as a razor
Smooth like a dancer
Fired up and ready
Livin' life and having a ball
She's got the rythm
She's only sixteen
And I'm cocked and loaded
She loves to pull my trigger

Well intoxicated
Don't get tired

Grab that feeling!
Before it fades away!
Drown your sorrows!
Or they will drown you
Grab that feeling!
And don't worry about tomorrow
Catch the night while you can

Well intoxicated
Don't get tired or jaded
Feel the flame that's burning
In your veins

Grab that feeling!
Before it fades away!
Drown your sorrows!
Or they will drown you
Grab that feeling!
And don't worry about tomorrow
Catch the night while you can
Grab that feeling!
Before it fades away!

Drown your sorrows!
Or they will drown you
Grab that feeling!
And don't worry about tomorrow
Catch the night while you can

Oh, catch the night while you can
