

Crack In The Shell

Dynazty

Lying in unconsciousness, sleeping in false mindfulness
Mentally melting down you fail to impress
It's a trend we see through to the end
This fad we choose will physically break us down
We crack without a sound

Like a scene that's on repeat
We're all living in a dream
Forgetting what it's like to awaken
Tell me can't you see
The crack in the shell
Out from the inside we all stare
Dreaming of life without a care
Tell me can't you see
The crack in the shell

Drifting in subconsciousness, acting in false selflessness
Morally plunging down we crack under duress
If we fail to see behind the veil
We adapt to life lived through a lens
It does not make sense

Like a scene that's on repeat
We're all living in a dream
Forgetting what it's like to awaken
Tell me can't you see
The crack in the shell
Out from the inside we all stare
Dreaming of life without a care
Tell me can't you see
The crack in the shell

No, I can't relate
When the truth has turned to lie
The humanity within us slowly will die

When darkness falls
We've finally lost it all
Nothing matters anymore
We close our eyes
And never realise
We all live within a dream
Like a scene that's on repeat
We're all living in a dream
Forgetting what it's like to awaken
Tell me can't you see
The crack in the shell
Out from the inside we all stare
Dreaming of life without a care
Tell me can't you see
The crack in the shell
